

## Experiment 6: Risk Treatment and Risk Acceptance

### Aim

To manage identified business risks by defining suitable risk treatment plans and documenting risk exceptions using the Eramba GRC dashboard.

### Procedure

1. Login to the Eramba Dashboard.
2. Navigate to **Risk Management** → **Business Risks**.
3. Select the **Business Interruption** risk.
4. Open the **Analysis** section and verify the risk assessment.
5. Review the Likelihood, Impact, and Risk Score.
6. Open the **Treatment** section.
7. Configure the risk treatment as **Accept** and associate relevant internal controls such as *Endpoint Protection*, *Backup and Recovery*, and *Firewall Management*.
8. Associate the *Information Security Policy* with the treatment.
9. Save the risk treatment configuration.
10. Navigate to **Risk Management** → **Risk Exceptions**.
11. Create/import risk exceptions with a description, requester, contact, expiration date, and status.
12. Verify the created exceptions in the Risk Exceptions register.

### Output

The Business Interruption risk was analyzed with a Medium Likelihood, Very High Impact, and Risk Score of 6. Relevant controls and the Information Security Policy were associated with the risk treatment. 10 risk exceptions were also created and recorded in Eramba.

The screenshot displays the 'Edit Action' window for a risk analysis configuration. It features three tabs: 'General', 'Analysis', and 'Treatment'. The 'Analysis' tab is active, showing the following configuration:

- Likelihood (Medium)**: A dropdown menu with a value of 'Medium' and a description 'MAY OCCUR OCCASIONALLY'.
- Impact (Analysis)**: A dropdown menu with a value of 'Very High' and a description 'SEVERE BUSINESS IMPACT'.
- Risk Score**: A calculation showing '2 \* 4 = 6'.

At the bottom right, there are 'Close' and 'Save' buttons.

Fig 6.8 – Risk Exception Item Detail View

## Result

The business risk was successfully analyzed and its treatment was configured in Eramba. Risk exceptions were successfully created, configured with requesters, contacts, and expiration dates, and verified in the Risk Exceptions register.
